

PLASTIC FOR CHANGE

Social Media Intern Assignment(2)

Prepared by:

Mehul Deshmukh

Introduction

Plastic For Change has built a strong reputation around sustainability and social impact. However, on LinkedIn, there is an opportunity to further position the company as a trusted B2B supplier of recycled plastic for brands, packaging teams, and procurement professionals.

The following three LinkedIn campaign concepts are designed to generate awareness, build credibility, and create qualified B2B leads while maintaining Plastic For Change's impact-driven story.

Campaign 1: Sustainability Scorecard

Objective: Position Plastic For Change as an industry thought leader by benchmarking sustainability readiness across industries.

Target Audience:

- Sustainability Managers
- Procurement Heads
- FMCG Brands
- Consumer Goods Manufacturers

Content Formats:

- LinkedIn Carousels
- Industry Reports
- Thought Leadership Posts
- Polls and Industry Insights

Campaign Concept: Plastic For Change publishes a quarterly Sustainability Scorecard ranking industries or packaging categories based on sustainability readiness, recycled content adoption, and traceability practices.

Sample CTA: Download the Sustainability Scorecard Report

Why It Works: Brands naturally compare themselves against competitors. This campaign creates engagement, encourages report downloads, and positions Plastic For Change as an authority in sustainable materials.

1 CAMPAIGN 1: SUSTAINABILITY SCORECARD

Benchmarking brands. Driving better choices.

OBJECTIVE

Position Plastic For Change as an industry authority by publishing quarterly sustainability scorecards that benchmark brands and industries.

TARGET AUDIENCE

- Sustainability Managers
- Procurement Heads
- FMCG Brands
- Consumer Goods Manufacturers

CONTENT FORMATS

- LinkedIn Carousels
- Thought Leadership Posts
- Infographics & Reports
- Polls & Industry Insights

CALL TO ACTION

Download the full Scorecard Report.

WHY IT GENERATES LEADS

Brands want to know how they perform against competitors and where they stand. This creates curiosity, engagement and high-intent downloads.

SAMPLE LINKEDIN POST (CAROUSEL)

1

India's Sustainable Packaging Readiness Scorecard 2026

Benchmarking today. Building a better tomorrow.

PLASTICS FOR CHANGE

2

Top Industry Scores

Personal Care	78/100
Home Care	65/100
Food & Beverage	58/100
Pharma	52/100
Others	40/100

Scoring based on recycled content, traceability, innovation & transparency.

3

Common Gaps We See

- Low recycled content usage
- Limited traceability
- Inconsistent supplier data
- Lack of transparent reporting

4

How Plastic For Change Helps

- Consistent quality
- End-to-end traceability
- Compliance ready documentation
- Scalable & reliable supply

5

Campaign 2: Could Your Product Be Recycled?

Objective: Generate conversations with brands by evaluating packaging and product materials for recycled-content opportunities.

Target Audience:

- Packaging Teams
- Product Development Teams
- Innovation Managers
- FMCG Brands

Content Formats:

- Interactive Carousels
- Product Analysis Posts
- Short Videos
- Polls and Q&A Posts

Campaign Concept: Plastic For Change analyzes real-world packaging examples and demonstrates how recycled plastic can be integrated while maintaining quality and performance.

Sample CTA: Request a Packaging Assessment

Why It Works: The campaign creates curiosity and encourages brands to engage directly with Plastic For Change for product-specific recommendations, generating qualified sales conversations.

2 CAMPAIGN 2: COULD YOUR PRODUCT BE RECYCLED?

Turning curiosity into conversations.

OBJECTIVE

Encourage brands to engage by analyzing their packaging and showing how much recycled content can be used.

TARGET AUDIENCE

- Packaging Teams
- Product Development Teams
- Innovation Managers
- FMCG Brands

CONTENT FORMATS

- Interactive Carousels
- Short Videos
- Before & After Analysis
- Polls & Question Posts

CALL TO ACTION

Request a free packaging assessment.

WHY IT GENERATES LEADS

Brands love personalised insights about their own packaging. This drives high-intent inquiries from decision makers.

SAMPLE LINKEDIN POST (CAROUSEL)

1

Can this packaging contain recycled plastic?

Let's analyze.

2

Current Challenges

- Made from virgin plastic
- Limited recyclability
- High environmental footprint
- Consumer demand for sustainability

3

Recycled Content Opportunity

Up to **50%**

post-consumer recycled content possible with no compromise on quality.

4

Business Benefits

- Reduce environmental impact
- Meet sustainability goals
- Strengthen brand reputation
- Future-proof your packaging

5

Campaign 3: Compliance Without Compromise

Objective: Position Plastic For Change as a trusted supplier that helps brands achieve sustainability and compliance goals while maintaining supply chain reliability.

Target Audience:

- Sustainability Managers
- Procurement Heads
- Compliance Teams
- FMCG Brands

Content Formats:

- Compliance Checklists
- Educational Carousels
- Policy Update Content
- Thought Leadership Posts

Campaign Concept: Create content that addresses common concerns around traceability, documentation, sustainability reporting, and future regulatory requirements.

Sample CTA: Book a Compliance Consultation

Why It Works: Compliance and sustainability reporting are becoming critical priorities for global brands. By solving these challenges, Plastic For Change becomes more than a supplier—it becomes a strategic partner.

3 CAMPAIGN 3: COMPLIANCE WITHOUT COMPROMISE
Stay compliant. Stay competitive.

OBJECTIVE
Position Plastic For Change as a trusted partner that helps brands meet sustainability, traceability and compliance requirements without increasing operational risk.

TARGET AUDIENCE

- Sustainability Managers
- Procurement Heads
- Compliance Teams
- FMCG Brands

CONTENT FORMATS

- Thought Leadership Posts
- Compliance Checklists
- Educational Carousels
- Policy Update Content

CALL TO ACTION
Book a Compliance Consultation.

WHY IT GENERATES LEADS
Compliance is a critical concern for global brands. We solve their risk and reporting challenges, creating trust and inquiries.

SAMPLE LINKEDIN POST (CAROUSEL)

- 1** New sustainability regulations are coming. Is your packaging ready?
- 2** **Top Compliance Risks**
 - Unclear sourcing documentation
 - Inconsistent traceability
 - Unverifiable sustainability claims
 - Risk of greenwashing penalties
- 3** **What Brands Need Today**
 - End-to-end traceability
 - Verified recycled content
 - Audit-ready documentation
 - Regulation-ready processes
- 4** **How Plastic For Change Helps**
 - 100% Traceable Supply Chain
 - Third-party verified processes
 - Robust documentation for audits
 - Compliance without operational risk
- 5** **Let's make compliance simple.**

OUR LINKEDIN STRATEGY APPROACH
Awareness → Consideration → Lead Generation → Sales Conversation

We create valuable, industry-relevant content that attracts the right decision-makers, builds trust and converts engagement into high-quality B2B leads.

PLASTICS FOR CHANGE

Personal Recommendation

Among the three proposed campaigns, I would prioritize launching “Could Your Product Be Recycled?” first.

This campaign is highly interactive, encourages direct engagement from brands, and creates opportunities for meaningful conversations with packaging, innovation, and procurement teams. Unlike traditional awareness content, it allows Plastic For Change to demonstrate expertise through real-world packaging examples while generating qualified inbound inquiries.

Additionally, the campaign can be scaled easily across LinkedIn through carousel posts, short videos, polls, and product assessments, making it a strong lead-generation initiative for the brand.

While reviewing Plastic For Change's LinkedIn presence, I noticed that the brand strongly communicates its social impact and sustainability mission. However, there is an opportunity to further position the company as a trusted B2B recycled plastic supplier for procurement, packaging, and sustainability decision-makers.

LinkedIn Marketing Funnel

Awareness → Engagement → Consideration → Lead Generation → Sales Conversation

Key KPIs: LinkedIn Engagement Rate, Profile Visits, Website Clicks, Content Downloads, Consultation Requests, and Qualified Leads Generated.

These campaigns are designed not only to increase visibility but also to attract decision-makers, generate qualified leads, and position Plastic For Change as a trusted B2B recycled plastic supplier.
